Garden apartment

ARCO · TRENTINO

PROJECT OVERVIEW

An apartment that extends into the garden.

For a couple in Arco, the project transforms an unfinished ground-floor apartment into an intimate contemporary home. The interior and garden were conceived as one domestic landscape to enjoy throughout the year.

BEFORE THE INTERVENTION

The space before the project.

An unfinished shell and an outdoor area still under construction offered the opportunity to define the relationship between home and garden from the outset.

A new spatial layout.

The open-plan kitchen and living area opens onto the garden; the corridor leads to two bedrooms and a generous bathroom.

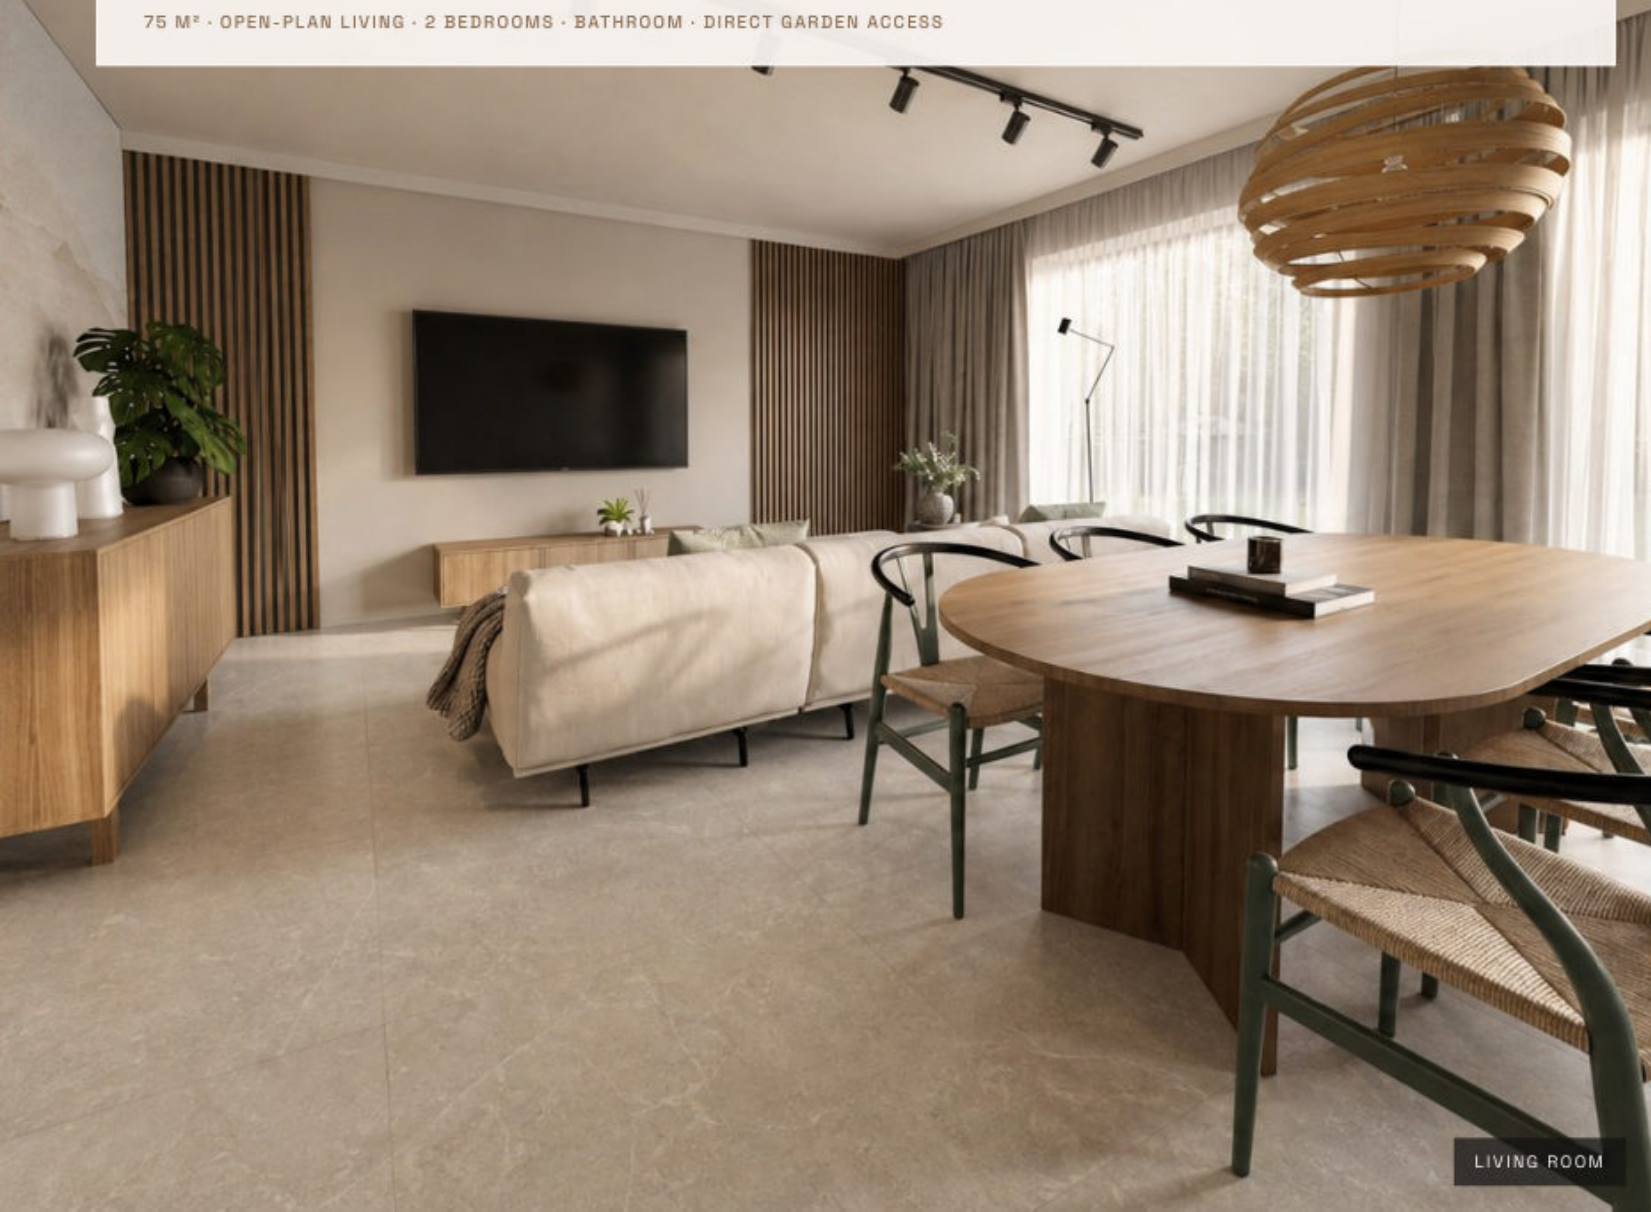

A floor plan of a room with a dark grey border and a white interior. The room has a rectangular shape with a small protrusion on the right side. There is a small orange door on the right wall, slightly above the center. The room is empty, with no furniture or other features.

[illegible][illegible]

Warm, essential and naturally contemporary.

Warm Japandi with wabi-sabi accents: oak, greige, tactile surfaces and soft light create a calm home without rigidity.

LANDSCAPE DESIGN

A private oasis in the heart of Arco.

The garden extends the home outdoors: a contemporary Mediterranean composition designed for dining, relaxing and enjoying greenery without overcrowding it.

Outdoor dining

A table for 6–8 people in front of the open-plan living area.

Wellness

Sauna, timber deck and two loungers in a more secluded zone.

Open green space

A clear central lawn preserves light, depth and flexibility.

Edible planting

Fig, redcurrants and aromatic plants along the perimeter.

Interiors and landscape, one complete project.
