Holiday home in Ardaro

RIVA DEL GARDA

PROJECT OVERVIEW

A holiday home designed around family life.

Purchased by an American family as their holiday home, the apartment occupies the top floor of a building with colonial character, a short walk from the centre of Riva del Garda. Its dated interiors were completely reimagined to create a comfortable, functional and contemporary retreat.

≈ 97 m² MAIN FLOOR AREA	3 BEDROOMS	2 BALCONIES	Top floor WITH CONNECTED ATTIC
--	----------------------------------	-----------------------------------	--

PROJECT SCOPE

From full renovation to attic conversion.

Layout, materials, lighting and furnishings come together in a functional home designed for the whole family.

01 Layout and interior design Everyday spaces redesigned for family life and extended stays.	02 Complete renovation A coordinated project renewing the layout, systems and finishes.	03 Materials and colours A light base, natural wood and graphic dark accents.	04 Furniture and lighting Functional solutions, clean lines and lighting tailored to each room.	05 Attic conversion A private staircase connects it to the principal bedroom and brings it into use.
---	--	--	--	---

BEFORE THE RENOVATION

Outdated rooms and an attic waiting to be used.

The finishes, services and layout no longer met the family's needs.
The upper level was isolated from the apartment and had no domestic function.

EXISTING BATHROOM

Services and finishes requiring complete replacement.

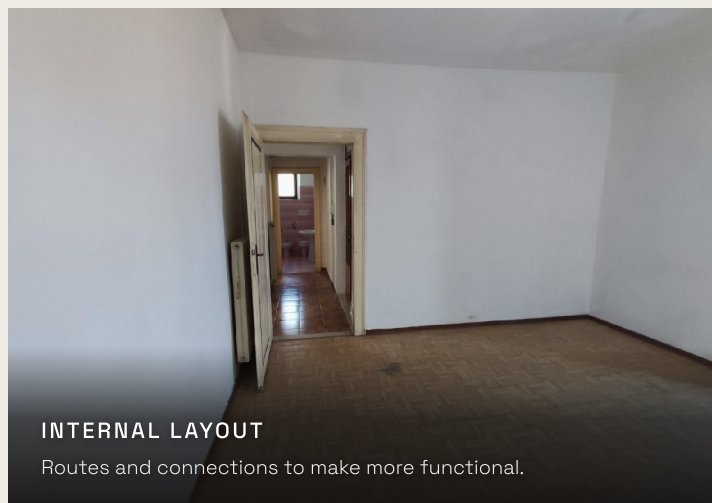

ATTIC

An unused space separated from the apartment.

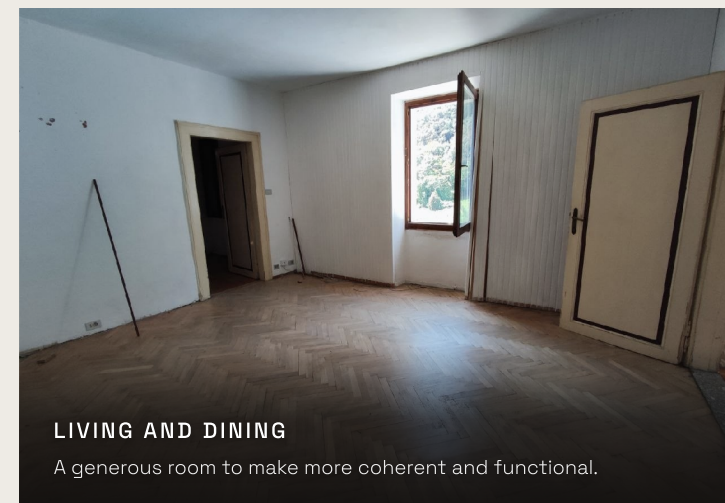

BEDROOM

A room to renew for comfort, light and everyday use.

INTERNAL LAYOUT

Routes and connections to make more functional.

LIVING AND DINING

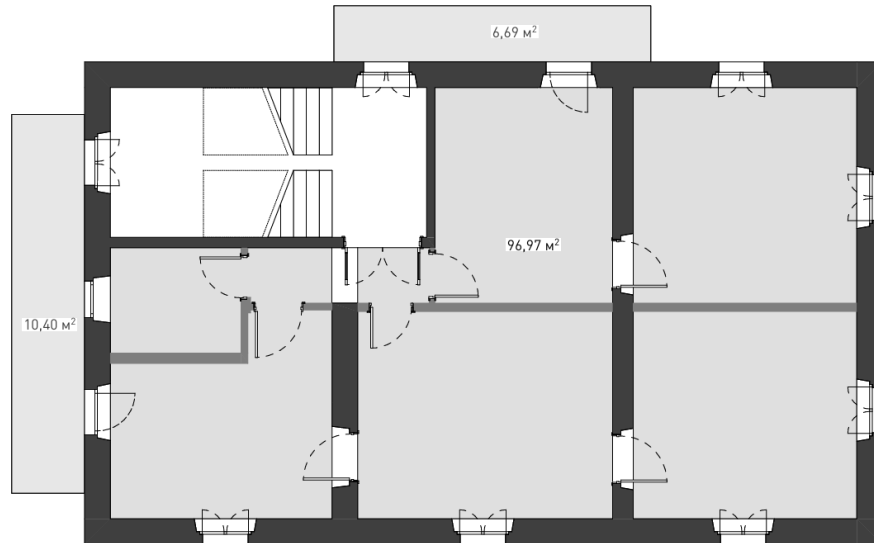

A generous room to make more coherent and functional.

THE DESIGN

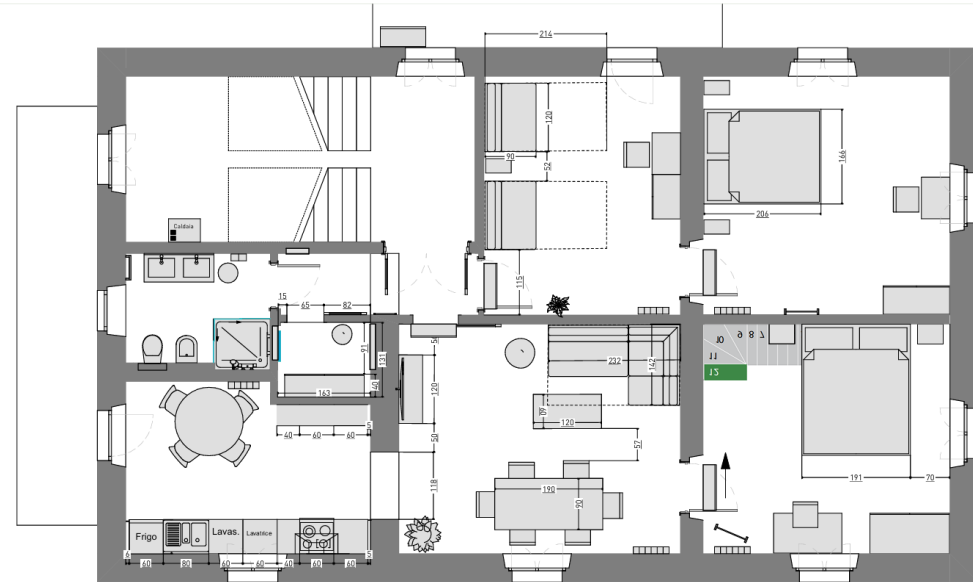

A renewed home, with more space to enjoy.

Three bedrooms, a separate kitchen, living room and two balconies. A new private staircase leads from the principal bedroom to the converted attic.

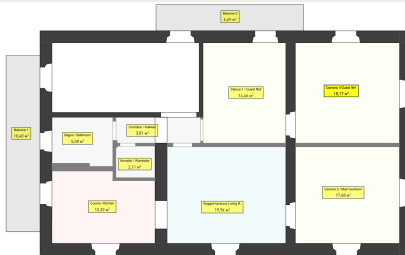

01 • EXISTING LAYOUT

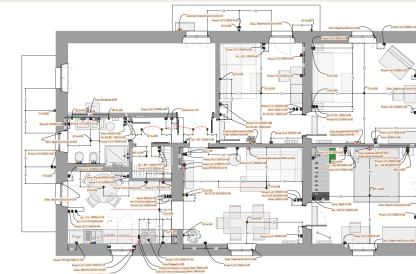

02 • LAYOUT AND FURNITURE

ZONING AND AREAS

LIGHTING PLAN

Contemporary, functional, confidently defined.

A light foundation enhances the top-floor daylight, while black details, natural wood and clean geometry shape a practical interior with a distinct identity.

≈ 97 M² • LIVING ROOM • KITCHEN • 3 BEDROOMS • BATHROOM • 2 BALCONIES

BEDROOM AND ATTIC

Everyday comfort, reclaimed space.

A new staircase connects the principal bedroom directly to the attic. The timber beams remain the defining feature, while the previously unused space becomes a private relaxation area.

A home to return to, time after time.

Let's talk about your project.
